

```
real_data_fetcher.RealData  
Fetcher.create_real_database
```

```
graph LR; A[real_data_fetcher.RealData  
Fetcher.create_real_database] --> B[real_data_fetcher.  
_save_to_cache]
```

The diagram consists of two rectangular boxes connected by a blue arrow pointing from left to right. The left box is white with a black border and contains the text 'real_data_fetcher.RealData' and 'Fetcher.create_real_database' on two lines. The right box is gray with a black border and contains the text 'real_data_fetcher.' and '_save_to_cache' on two lines.
